CONTENTS OF VOLUME 45

Article		Page
1.	Charles Judson Herrick: In Memoriam. By W. Alfred Everhart	1
2.	A Study of the Effects of Fertilizers on Vegetation Growth, Plankton Population and Numbers, and Pounds of Bass Harvested—in Eight One-acre Ponds. By George D. Morgan	3
3.	A Punched Card System for Cataloging a General Bibliography in Biology. By Robert W. Alrutz	18
4.	Abstracts of Nineteen Honors Papers presented by Members of the Graduating Class of 1959, Denison University	38
5.	The Relationships of the Base of the Mississippian System in Missouri. By Maurice G. Mehl	57
6.	Some Limit Theorems for Zeros of Successive Derivatives. By Arnold Grudin	108
7.	Weighted Ratios of Successive Derivatives. By Arnold Grudin	120
8.	Response Decrement under Continuous Reinforcement as a Function of Effort. By Paul T. Mountjoy, Edwin A. Day and Curtis C. Rogers	124
9.	Abstracts of Twenty-four Honors Papers presented by Members of the Graduating Class of 1960, Denison University	129
10.	Decrement to the Müller-Lyer Illusion as a Function of Visual Field Size. By Paul T. Mountjoy	149
11.	Preparation and Reactions of Some Cyclohexane 1-2 Dione Derivatives. By William G. Herkstroeter and William A. Hoffman	155
12.	Exploration of a Possible New Path to Anhydrous Transition Metal Halides. By Donald J. Bettinger	162
13.	Abstracts of Thirty-three Honors Papers presented by Members of the Graduating Class of 1961, Denison University	164
14.	A Neotype for *Palmatolepis gracilis* BRANSON AND MEHL 1934. By Maurice G. Mehl and Willi Ziegler	197
15.	Spontaneous Recovery of the Müller-Lyer Illusion. By Paul T. Mountjoy	207
16.	Reduction of Alloxan at Mercury Electrodes. By William A. Hoffman, Jr.	215
17.	Abstracts of Thirty-two Honors Papers presented by Members of the Graduating Class of 1962, Denison University	221
18.	Subject and Author Index, Volume 45	247
